How to use the Godsend App

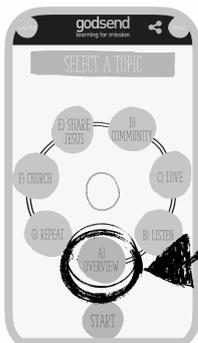

On your mobile phone or tablet download the free 'Godsend' app from the [app store](#) or [Google Play](#). Once downloaded click on the app to open it.

Using the App

Once you've opened the app there is a short introductory video to watch then you'll need to sign yourself in as a New User and you'll be ready to go.

You can find out more about the app in the **ABOUT** and **OVERVIEW** sections. Take a bit of time to explore the app and to familiarise yourself with the layout. To get back to the 'select a topic screen' click **BACK** - which you can find in the bottom left hand corner of the screen

Together with your group you will be working your way through the different topics as listed in the 'Select a Topic' screen from this point on called the Home Screen.

To select an option make sure the topic you want to select is in **GREEN** at the bottom of the circle and then click **START**. You can work your way through the topic by clicking **NEXT** which will be at the bottom right of the topic screen, or go back one page by clicking **PREV** on the bottom left.

Once you've finished on that section click **BACK** to get back to the Home Screen

Who is it for?

The Godsend app is for anyone who is starting or growing a new Christian Community, sometimes also known as: a Fresh Expression, church plant, organic church, worshipping communities etc.

The app was developed to help resource and grow Fresh Expressions.

This guide, developed by God for All Cumbria, is a way of using the app with a group of people - maybe in a locality, or around a common interest, to help explore, grow and develop new Fresh Expressions in Cumbria.

The app is not a 'how to' guide but rather will help you think through how to grow and develop a new Christian Community.

So let's begin - firstly you'll need everyone in your group to download the app - see above for links.

How to use this app with a group

We suggest that you ask the group to download the app and explore the 'Overview' section for themselves, we have created some optional worksheets that can be used in conjunction with this section that offer some additional questions and activities for individual use.

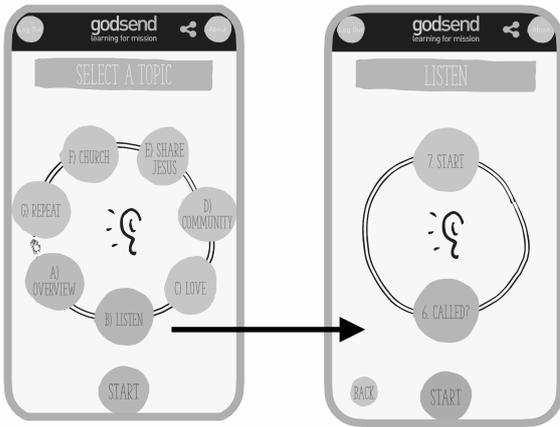

This guide unpacks each topic covered on the Godsend app so that you as leader or facilitator can 'pick up and go' with your group. However, for each topic there is an 'Action' section on the app which we recommend you pre-read and decide which bits you want to do with the group as applicable. If it's a big topic you may choose to split a topic out over a number of weeks.

On a practical note, in the session you will watch videos together which you can do either individually or together as a group - if doing as a group you may want to use speakers so that everyone can hear.

With groups we recommend you jump straight into B)Listen. In this guide Look for the symbol ? for discussion points 🖐 for activities 📌 will show you need some supplies.

How can you address this dissatisfaction? Drawing on who you are, what you know and who you know.

Exploring. Start with what your team is passionate about. Think about your experience and expertise ? ask: who do you know?

Telling a good story. Tell a story that persuades people because it connects with what they are interested in. Tell a story that makes sense of what you're thinking about. ? How does that happen? How could you tell a compelling story in your community?

Changing the story. Listen and watch - are people getting excited? Their reaction might tell you that changes may need to be made.
